

Juan Carlos Serna

Senior Vice President of Scientific and Clinical Affairs

Juan Carlos Serna became Senior Vice President of Scientific and Clinical Affairs (SaCA) in December 2020. Mr. Serna leads the global Clinical Affairs and Services, Medical Affairs, Physician Education, and Healthcare Economics teams as they work to advance scientific research and patient access to AngioDynamics' technologies and devices. Mr. Serna brings more than 20 years of experience to this role, leading FDA-regulated companies through preclinical, clinical, reimbursement, and regulatory transformations. Mr. Serna joined AngioDynamics in 2017 as Vice President of Global Clinical Affairs and Healthcare Economics. In previous roles, he founded and developed the core technology behind Right Submission, a web-based regulatory submission platform for the medical device industry, and served as president of a medical device clinical and regulatory consulting firm. He received his B.A. in Biology and Philosophy from Dartmouth College and an MBA from Franklin W. Olin Graduate School of Business at Babson College.
